Our website:

1. Our informational brochure has all the information that we would like people to be able to receive at a glance. The box on the front has very important defining information. Words we want to stress include "parent-participation," "developmentally appropriate," "child-centered," "play-based," "nationally accredited." We also have our logo from our t-shirts that we would like to see featured, including the five words in and on the square.

2. Class offerings information should be on one page.

3. The brief history might be copied from the cookbook pages that I have included. We like the pictures, too, and the little information about "diversity" would be great to include also!

4. Please include the "What you will find in our nationally accredited, developmentally appropriate classrooms." I can email pictures that can support each of those points.

5. The NAEYC logo that is on our brochure should also be featured. It's important. Providing a link to www.naeyc.org would be nice, along with the information from the NAEYC flyer provided.

6. A link to and from www.stmarksbloomington.org would be great, too.

In addition:

We would like parents to be able to access the following forms from the website with the following information on what is required:

- Registration form—one per child
- Health form (will need immunization record attached—one per child per school year
- Photo permission form—one per child
- Volunteer Information form—one for every adult who may participate in the classrooms
- Family Information form—one per family per year
- "Getting Acquainted with your Infant" or "Getting Acquainted with your Child"—one for every child completed less than one month prior to the beginning of class so that we have the most up-to-date information
- Emergency Information form—fill out the date child begins school so that we have the most up-to-date information
- Parent Handbook
What we would also like to have:

- It would be really nice if most of the information in our parent handbook was accessible, but that isn't necessary.
- Mention that we are a peanut and tree-nut free environment. Mention that we have a new "treehouse" climbing piece on our play yard (I'll get a picture) and a new indoor climbing wall.
- We would like to have a way to add newsletters, philosophy letters, etc. as they are written.
  We would like our calendar posted with information regarding our special events—"Getting Ready for Christmas," "Young at Art" Festival, parent education classes, snow days.

THANK YOU!! THANK YOU!! I can email pictures if you let me know what kind you would like—kids at work, our classroom environment, our teaching staff, a map to our school, etc. Let me know.

Ceci Maron-Puntarelli
Director, St. Mark's Nursery School
